## **John Loughlin Criticizes Obama's New Stimulus**

"President Obama's new \$50 billion stimulus proposal shows just how incapable this administration is of managing our economic recovery," said John Loughlin, Republican candidate for Congress in RI-1.

"At a time when the American people are up in arms over out-of-control spending and high taxation in Washington, President Obama and the Democrats have proposed to spend more money and raise taxes. The idea that a government can grow the economy and create jobs through more spending and higher taxes has been proven not to work."

"What our economy needs are job-creating tax cuts that will allow individuals to keep more of the money they earn and help Rhode Island businesses expand and add workers."
